

Precision-Engineered Lumber Solutions

Three decades of cooling tower lumber expertise, from forest to final installation...

Inventory That Powers Performance

At CTR, we've built one of North America's most comprehensive inventories of cooling tower materials. Every piece of lumber and plywood in our stock is grade-stamped and treated to deliver exceptional performance in demanding cooling tower environments.

Premium Materials, Ready Now

Superior Grade Lumber

- #1 and Select Structural Douglas fir
- Structural grade redwood
- All lumber is CCA-C treated per CTI STD-112 specifications
- Unlike many of our competitors, we supply 100% Free of Heart Center (FOHC) lumber
- Lumber bought directly from the mill to provide a more cost-effective solution

Plywood Solutions Engineered for Purpose

Our extensive plywood inventory combines readily available standard sizes with unlimited custom fabrication possibilities. Every sheet can be precisely machined to your specifications using our advanced CNC equipment.

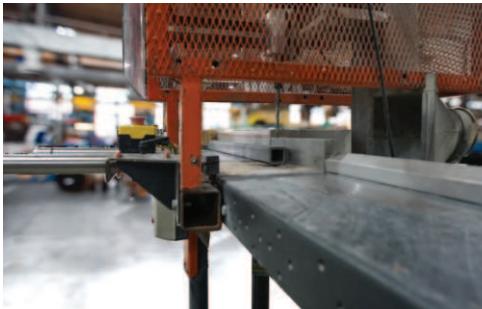

- Stocked plywood is BCX-STR 1
- Square edge and tongue and groove plywood for 1-inch and above
- Marine-grade options also available
- Multiple thicknesses for every cooling tower application
- CTI-STD-134-compliant treating processes

Advanced Fabrication Centers

Our manufacturing facilities combine precision technology with proven expertise to ensure materials arrive on site exactly when needed:

State-of-the-Art Manufacturing Systems:

- Multi-axis CNC machines for complex fabrication
- Multiple shear plate manufacturing capabilities
- TigerStop™ systems ensure repeatable accuracy
- Industrial gang drills and heavy-duty saws
- High-capacity resaws for efficient processing

This advanced capability ensures

- Emergency replacements are delivered directly to the site within critical timeframes
- Coordinated on-site delivery for planned outages
- Precise fabrication to your specifications and drawings
- Consistent quality across large orders
- Just-in-time site delivery to match your maintenance schedule

Custom Capabilities

- Precision CNC machining to your exact drawings
- Additional thicknesses available upon request
- Quick-turn custom fabrication
- Complex cuts and patterns
- Multiple sheet processing for larger projects

Global Distribution Excellence

Thirty years of international shipping experience translates to seamless delivery:

- ✓ Strategic understanding of import/export requirements
- ✓ Professional fumigation and heat treatment services
- ✓ Comprehensive customs documentation

- ✓ Specialized packaging for international transit
- ✓ Efficient logistics coordination for on-site delivery worldwide
- ✓ Treating certificates available upon request
